\*These services may vary depending on adviser, location and sign-up fee.

### Time Saver Service

- Bid Sheet provides daily cash prices offered comparing “apples with apples” for various port zones and wheat grade spreads.
- The Daily (NSW) or Weekly (WA) Newsletter provides a summary of events that have impacted on grain prices.
- Updates on industry changes that affect you. For example; freight differentials, new grades, pricing points.
- Educational workshops.

### Cash & Pool Service

- Recommendations and general advice on the cash and pool market is provided.
- Sourcing prices for specific grain types, amounts and locations.
- Pricing alerts via voice mail and/or SMS and/or email when we wish to alert you to pricing opportunities.
- Harvest Load Allocation; aims to maximise potential returns by taking advantage of price differentiation between different grain marketing products when allocating loads.
- Phone contact to MarketAg personnel for views and for personal advice on the cash market.

### Comprehensive Service

- Advice on all aspects of grain, oilseed and cotton marketing. Proactive personal advice on derivatives, currency, basis, spot and forward cash sales. We alert you when and advise on how to initiate or buy back a hedge.
- Position Statement containing all of your positions in the futures, currency and physical markets; these are regularly updated on a marked-to-market basis.
- Premium Newsletter/Strategy Update is provided to discuss a significant market event or make a specific recommendation. These newsletters provide general advice, offer strategies, recommendations and provide a summary of our medium term price outlook.
