

MarketAg Advisory Services

MarketAg is an independent business providing grain marketing advice to Australian broadacre farm businesses.

We provide producers with the information and advice needed to make informed decisions on commodity marketing. MarketAg is fee for service (no brokerage).

Our adviser team has skills across the sector: commodity trading, grain accumulation and farm finance. We are 100% focused on client goals and outcome.

By following all physical grain (FIS and DEU) and derivative markets, we connect our clients with tailored solutions to accomplish their goals.

As a client, you have a dedicated adviser who helps formulate and execute a grain marketing plan, as well as taking care of all your grain marketing administration and providing you the peace of mind of regular, transparent reporting.

MarketAg operates under Australian Financial Services (AFS) Licence 325 936.

Clients can select the advisory package that suits their business.
